

Press Release: Announcement of being recognized as a Dun & Bradstreet Start-Up Trailblazer

TechInvention Lifecare Pvt. Ltd. wins the coveted 'Start-up 50: The Trailblazers Award' from Dun & Bradstreet.

Mumbai, 14 June 2024: Dun & Bradstreet, a leading global provider of business decisioning data and analytics, recently held its 2nd edition of "Dun & Bradstreet LEAP India Startup Summit 2024" at the Taj Bangalore, India. Mumbai-based biotech company TechInvention Lifecare Pvt. Ltd. received the coveted 'Start-up 50: The Trailblazers Award'.

Dun & Bradstreet recognized start-ups that set benchmarks for innovation, quality, and customer focus and had a firm roadmap for sustainable growth and profitability by releasing its 2024 list of "Start-Up Trailblazers." The theme of the summit was 'Calibrating the Start-up Story: Saleable, Scalable, and Sustainable', which focused on how startups can innovate, navigate challenges, and drive sustainable growth.

Syed Ahmed, CEO of TechInvention Lifecare, stated, "As a team, we are honored to be recognized as a 'Start-Up Trailblazer' by Dun & Bradstreet. The fact that we are a self-funded, cash-positive company since inception, with an innovative business model that comprehensively addresses prevention, detection, and treatment through vaccines, diagnostics, and novel biotherapeutics primarily for developing countries cemented our victory. We are also proud to say that Dun & Bradstreet has given us a score of 76 out of 100 in the SME rating group, which places us in the low-risk category, further validating our robust business model and operational excellence."

TechInvention is actively engaged in enabling One Health by addressing the interconnected health challenges of humans, animals, and the environment, which is exemplified by their upcoming initiative, the Global Collaborative centre for Medical Countermeasures (GCMC). GCMC, an integrated facility catering to medical countermeasures (MCMs) from strain to supply, is set to become a pivotal technology development and transfer centre. It aims to serve Centres of Translational Research Excellence, including start-ups, academic institutes, R&D organizations, and SMEs, by supporting development technology packs that are IP-secured, process-optimized, scaled up, validated, and regulatory-approved, backed by pre-clinical and clinical data. This initiative will enable seamless tech transfers to both brownfield and greenfield projects, optimizing productivity and reducing time-to-market. GCMC stands to be a game-changer in biotechnology, bringing bio-solutions that are comprehensive, compliant, competitive, and cost-effective, thereby further enhancing TechInvention's capabilities in driving scientific innovation and sustainable solutions globally.

About TechInvention Lifecare Pvt. Ltd.:

TechInvention Lifecare Pvt. Ltd., a certified "DeepTech Pioneer" start-up, distinguishes itself as a unique Indian biotech company, supporting the 'One Health' concept by integrating three pivotal interventions: vaccines, novel biotherapeutics, and diagnostics targeting infectious diseases, catering to both human and veterinary sectors. It not only dedicates its innovation to advancing global health through its vast R&D pipeline, but it also supports manufacturing capacity-building projects and provides technology that is compliant and affordable. The company is dedicated to addressing any future health challenges.
